

- Introduction
  - Preliminary material
  - Course structure
  - Scope of practice
  - Ethics and consent
  - Practicalities
- Abdominal massage
  - Introduction and counter indications
  - Anatomy of the internal organs
  - Types of touch and palpation skills
  - Procedures
    - Basic CNT
    - Fundamental techniques
    - Advanced CNT
- Gynaecological massage
  - General structures
    - Anatomy of the pelvic girdle
    - Anatomy of the internal muscles of the pelvis
    - Anatomy of the reproductive system
  - Vulva
    - Anatomy of the vulva
    - Issues and solutions pertaining to the vulva
    - Procedures
      - Vulva massage and UPS procedure
  - Vagina
    - Anatomy of the vagina
    - Issues and solutions pertaining to the vagina
    - Procedures
      - Thiele stripping procedure
      - Other massage techniques
        - Pulsation technique
        - Single point press technique
        - Trigger points technique (Thiele points)
        - Stretching procedures
          - Midwife stretch
          - Hymen stretch
          - Atrophic vaginitis stretch
  - Bladder and urination
    - Anatomy of the bladder and of the urinary system
    - Issues and solutions pertaining to the bladder
    - Procedures
      - Bladder lift
      - Bladder-urethral sphincter synchronization
      - Incontinence and interstitial cystitis
  - Breasts
    - Anatomy of the breasts
    - Issues and solutions pertaining to the breasts
    - Procedures
      - Mammary glands
      - Painful or heavy breasts
      - Fibroids
  - Anus and rectum
    - Anatomy of the anus and the rectum
    - Issues and solutions pertaining to the anus and the rectum

- Procedures
  - Anal massage preparation
  - Rectal Thiele stripping technique
  - Fissures
- Other techniques
  - Prolapse techniques
    - Common procedures
    - Uterus prolapse
      - 1st degree
      - 2nd degree
      - 3rd and 4th degree
    - Vaginal prolapse
    - Rectal prolapse
  - Uterus displacement
    - Retroversed uterus
    - Lateralized uterus
    - Lateralized cervix
  - Neuralgia
    - Nerves of the pelvis
    - Massage procedure to assess for neuralgia
    - Nerve reset
    - Nerve rewiring
    - Pudendal neuralgia
- Cycles
  - Menstrual cycle
  - Hormones
  - Pregnancy and birth
  - Menopause
- External myofascial release of the Deep Front Line (DFL)
  - Myofascial release
  - Approach
  - Anatomical explanation of the work
  - Variations
  - Techniques
  - Anatomical structures of the DFL
  - Procedures
    - Upper body
    - Lower body
- Sexual issues and Tantric yoni massage
  - Tantric yoni massage
